Zen-Oh, Cosmic Unison

BT10 Unison Warrior 2020 #BT10-035

OFFICIAL GRADE

8

CERTIFICATE NO.

CLA-9DB903F7

Score: 85.75 / 100

Certification: Grade + Encapsulation | Confidence: High

This card has been independently assessed and encapsulated by Collectors League Australia (CLA). Following comprehensive forensic examination of all four grading categories -- Centering, Corners, Edges, and Surface -- this example of Zen-Oh, Cosmic Unison (BT10-035 SPR, Dragon Ball Super Card Game: Unison Warrior Series) has been awarded the grade of 8 NEAR MINT-MINT with an overall score of 85.75/100. Centering shows minor vertical bias, corners display consistent light blunting, edges remain structurally sound with trace whitening, and the holographic surface maintains strong reflectivity despite localized micro-scratching. The card is confirmed authentic -- print registration, cardstock composition, and foil application are all consistent with genuine Bandai production for the BT10 release. No evidence of alteration, restoration, or counterfeit production was identified. Assessment conducted at CLA Sydney facility. Assessment date: 2026-04-26.

B EVIDENCE IMAGES & DEFECT ANALYSIS SNAPSHOTS

Card Front (Raw)

Card Back (Raw)

A CENTERING (MEASURED)

Centering Notes:

Horizontal centering appears symmetrical within acceptable tolerance. Vertical centering shows minor bias toward bottom edge, measuring approximately 52/48 distribution on obverse face. Back centering appears more balanced.

B CORNERS (OBSERVED)

Observed: Minor Blunting

Limiting Factor	YES
Corners Subgrade	8

Corners Notes:

All four corners exhibit consistent light blunting with minimal fiber exposure. Bottom-left corner shows most pronounced wear with slight whitening at the tip. Top-right corner displays moderate blunting. Top-left and bottom-right corners show lighter but visible rounding. Wear pattern consistent with handling rather than factory defects.

C EDGES (OBSERVED)

Observed: Whitening

Limiting Factor	YES
Edges Subgrade	9

Edges Notes:

Structural integrity of all edges remains intact. Top edge displays trace whitening along approximately 30% of its length. Right edge shows subtle compression at mid-point. Left and bottom edges appear clean with no visible defects. No chipping or delamination detected.

D SURFACE (OBSERVED)

Observed: Scratches

Limiting Factor	YES
Surface Subgrade	8.5

Surface Notes:

Obverse holographic surface maintains strong overall reflectivity with localized micro-scratching concentrated in the central Zen-Oh character area. Minor coating wear visible in high-contact zones around card edges. Reverse face Dragon Ball pattern shows excellent preservation with minimal handling marks. No print lines, pressure marks, or major surface damage detected.

E SUBGRADE SCORE SUMMARY

Centering	Corners	Edges	Surface
8.5	8	9	8.5

A SUMMARY FINDINGS (FORENSIC NARRATIVE)

This example of the Zen-Oh, Cosmic Unison (BT10-035 SPR, Dragon Ball Super Card Game: Unison Warrior Series) presents in Near Mint-Mint condition with consistent light handling wear across categories. Centering exhibits minor bias toward the bottom edge on the obverse face, measuring approximately 52/48 vertical distribution. All four corners show consistent light blunting with minimal fiber exposure, most pronounced on the bottom-left and top-right corners. Edges display clean structural integrity with trace whitening along the top edge and subtle compression at the right edge mid-point. The special parallel holographic surface maintains strong reflectivity with localized micro-scratching in the central character area and minor coating wear in high-contact zones. The card is confirmed authentic with print registration, cardstock, and foil application consistent with genuine Bandai production. Awarded 8.5 NEAR MINT-MINT+ with an overall score of 85.75/100.

B PRIMARY LIMITING FACTORS

Handling / Play Wear

Storage-Related Wear

Limiting Factor Details:

Consistent light corner blunting across all four corners with minimal fiber exposure, attributed to handling wear rather than factory defects. Localized micro-scratching present in the central holographic area of the obverse face, consistent with light play or storage contact. Minor edge whitening along top edge and subtle compression at right edge mid-point.

C GRADE RATIONALE CONFIRMATION

Rationale

Subgrades Consistent with Final Grade

Centering scores 8.5/10 due to minor bottom bias on obverse face. Corners score 8.0/10 due to consistent light blunting across all four corners. Edges score 9.0/10 with clean structure but trace whitening and compression. Surface scores 8.5/10 due to localized micro-scratching and minor coating wear. Combined score of 85.75/100 places this card within the 8.5 NEAR MINT-MINT+ band.
